STOVES AND TINWARE

GOING AT COST!

A Great Chance | for Bargains at J. SCANTLIN, Jr.'s

ON MAIN STREET NEXT DOOR TO MARRIE HALL, OPPOSITE THE STATE BANK. 41 THE subscriber having purchased a heavy Stock of Stoves before the panic, bads himself at this season. with a surplus, and rather than keep them over till another autuum, he has resolved to put his prices down to prime cost, and this time he will sell any article in his present Stock to his customers at the price of the man-

ufacturers by the wholesale. His Stock of Stoves and Tinware is large, and embraces every variety of article in his line, and his present offer will give the people in town and country, the best opportunity they will have in a long time to secure bargains. Those farmers and others who may not need a new Stove till next year, will make a good investment to buy now and keep the r purchase till they need the use of it, for it will save them 20 or 25 per cent in the cost, which is a larger interest than they can make in any other way with their surplus funds. Every one disposed to purchase is invited to call at the Stove Ware Poom, on Main street, next door to Marble Hall, directly opposite the State Bank, and examine the Stock, and look at the bargains offered. novidly . THAT GUM BELTING!!! To refute utterly statements made in an advertise-ment in another column, about the "New York Belting Co's" Vulcanized Rubber Belting and Pack-ing, it is only necessary to say, that the editors of

"THE SCIENTIFIC AMERICAN," in a long and elaborate article in their columns (which every reader of that invaluable paper has seen) recommends the New York Belting Co's Belting above all others, and by way of a clincher they state that they use it on all their presses and machinery.

This Company is wealthy, and I am authorized to guarantee the articles made by them equal, if not support to the other makes. The rapid sale of the New York Belting to our largest machinists, mills, and factories (to men who are judges and cannot be deceived) is sufficient evidence of its value, but the testimony of the scientific American cur't be set aside by a disparaging competitor.—

A VALUABLE TRACT OF LAND, Adjoining the Town of Cannelton Consisting of about one hundred acres, one-half o which is bottom land, and the remainder extends into the delightful hills that border the town. All of it is embraced in plat of the town of Cannelton, and is in figure of the Number that draws the \$10,000 Prize. For example, if the Number drawing the \$10,000 Prize ends with No. 1, then all the Tickets, where the number ends with No. 2, then all the Tickets, where the number ends with No. 2, then all the Tickets where the Number ends in 2 will be entitled to \$20. If the Number ends with No. 2, then all the Tickets where the Number ends in 2 will be entitled to \$20, and so on 1 9.

Certificates of Packages will be sold at the following rates, which is the risk: vegetable gardens for which the town affords a good market and high prices. The land will eventually all be wanted for house lots. On the premises are three dwellings, one of which is worth \$500; another is worth \$1500; the off er a beautiful cottage residence, cost \$100 three years sgo to erect it. Either of these houses can be had with the land, or all of them, as the purchaser may wish: they are separated by a street from the body of the land, and all of the 'etz laid off for resi dences. The property will be sold on a liberal credit to a responsible purchaser. The location is one of the most delightful on the Ohio

river, and the principal cottage with three acres in garden and fruit is the most beautiful rural residence between here and Louisville. Thechief motive for offering it for sale, is that the property is too valuable to rent, and needs more attention than the owner can at present bestow on it.
